WAY2CARS

Manual test guide — every flow

Renter app (Android + web) · Host app (Android + web) · Admin panel · Backend jobs
Release v1.2.1 (renter app) · v1.2.0 (host app) · 30 October 2026

This guide lists every user flow in the product as a numbered test with steps and the expected result. Tick Pass or Fail for each one and write what you saw in the last column. Tests marked **[NEW]** cover the 13 additional requirements delivered in v1.2.0; the traceability table in section 15 maps each requirement to its tests.

Contents

1. Before you start (setup, accounts, test data)
2. Admin setup: sign-in, settings, catalogue
3. Host app: onboarding, cars, bookings, earnings
4. Admin: hosts, vehicles, documents, commercials
5. Renter app: account, KYC, search, booking
6. Renter app: trip lifecycle (pickup, extension, return, settlement)
7. Admin: bookings and operations
8. Admin: security deposit, inspection and refunds
9. Admin: finance (settlements, payouts, investors, wallet)
10. Admin: analytics and follow-ups
11. Admin: marketing, content and moderation
12. Admin: system (admins, roles, audit, integrations)
13. Notifications, WhatsApp/SMS and background jobs
14. Web replicas, negative and edge cases
15. Requirement traceability and sign-off

1. Before you start

1.1 What you need

• Backend v1.2.0 deployed on the server (the apps call https://way2cars.io). **The new features only work after the backend is deployed.** Run `deploy/deploy.sh` on the server and check `https://way2cars.io/api/ready` returns *ready*.

• APKs from `liveReleases/`: `way2cars-user-v1.2.1.apk` (renter) and `way2cars-host-v1.2.0.apk` (host). Install on two Android phones (or one phone, one emulator). They install over v1.1.x.

• Admin panel: https://way2cars.io/admin (desktop browser). Renter web: /user. Host web: /vendor.

• A super-admin account (created with `npm run admin:create -w @way2cars/backend`) and an authenticator app for MFA. Create a second admin with role *operations* and a third with role *finance* for permission tests.

• Phones / OTP: if SMS India Hub is not configured, use the dummy numbers 9999900001–9999900004 (code **123456**), or OTP bypass on the test server.

• Razorpay in **test mode** for payment tests (card 4111 1111 1111 1111, any future expiry, any CVV; UPI success@razorpay).

• Sample documents: any JPG/PNG/PDF under 8 MB for KYC, RC, insurance, PUC, bank proof.

1.2 Suggested test accounts

Who	Number / login	Used for
Host A	9999900001	Attached host with cars
Renter R1	9999900002	Main renter (KYC approved)
Renter R2	9999900003	Second renter (booked-car and drop-off tests)
Renter R3	9999900004	New renter (onboarding, KYC rejection)
Super admin	your email	Everything
Ops admin	ops@…	Operations-only permission checks
Finance admin	finance@…	Finance-only permission checks

1.3 Recording results

For every Fail, note the test ID, phone model / browser, the time (IST), the booking ref if any, and a screenshot. Error messages show a request id in the admin panel — include it. Admin → System → Audit log shows who did what and when.

2. Admin setup: sign-in, settings, catalogue

2.1 Sign-in and security

ID	Test & steps	Expected result	Pass / Fail / Notes
A-01	**Admin login with MFA** 1. Open /admin, enter email + password. 2. First login: scan the QR in an authenticator app and enter the 6-digit code. 3. Log out and log in again with a code.	MFA enrolment works; later logins ask for the code; wrong code is rejected.	☐ Pass ☐ Fail
A-02	**Lockout** 1. Enter a wrong password 5+ times.	Account is temporarily locked with a clear message; audit log records failed attempts.	☐ Pass ☐ Fail
A-03	**Session expiry / refresh** 1. Stay idle until the access token expires, then click a page.	Session refreshes silently; after logout, Back does not show data.	☐ Pass ☐ Fail
A-04	**My security** 1. System → My security: change password, re-enrol MFA.	Password change works; old password no longer works.	☐ Pass ☐ Fail

2.2 Settings (System → Settings)

ID	Test & steps	Expected result	Pass / Fail / Notes
A-10	**Support contacts** 1. Set Support phone (e.g. 98xxxxxxxx), WhatsApp, email, hours, roadside phone. Save and confirm.	Version number increases; values appear in renter Help screen and Home "Call support" button.	☐ Pass ☐ Fail
A-11	**[NEW] Advance % for host cars and fleet** 1. Advance payment: set "host cars" 30% and "WAY2CARS fleet" 50%. Save.	Saved. Renter checkout for a host car offers "Pay 30% now", for a fleet car "Pay 50% now" (test R-30).	☐ Pass ☐ Fail
A-12	**[NEW] Security deposit rules** 1. Security deposit: minimum money deposit ₹15,000, default refund timeline 7 days, allow bike (2022+), allow laptop (2023+), "Inspect the car before refunding" ON.	Saved; reflected at checkout (R-34..R-36) and in deposit review (O-30).	☐ Pass ☐ Fail
A-13	**[NEW] Trip rules & messaging** 1. Trip rules: speed limit 80 km/h, edit the rules list (one per line), turn WhatsApp and SMS confirmation on.	Saved; rules appear on the renter trip page and in the confirmation message (N-05).	☐ Pass ☐ Fail
A-14	**Fees, commission, booking rules** 1. Change convenience fee, delivery fees, commission %, hold minutes, min/max trip length, lead time, buffer.	New bookings use the new values (check a quote). Confirmation dialog lists every change.	☐ Pass ☐ Fail
A-15	**Cancellation tiers** 1. Edit tiers (e.g. 24h → 100%, 6h → 50%, 0h → 0%) and cancellation fee.	Cancellation preview in the renter app follows the tiers (R-50).	☐ Pass ☐ Fail
A-16	**Trip charges, payouts, rewards** 1. Change late grace, late fee multiplier, fuel charge per ⅛, return review hours, min photos, payout hold days, min withdrawal, referral/loyalty amounts, max wallet use.	Values saved and applied to new trips / settlements.	☐ Pass ☐ Fail
A-17	**Host visibility** 1. Toggle what hosts see (renter name, phone, KYC, amounts, payment status).	Host app booking detail hides/shows those fields accordingly (H-30).	☐ Pass ☐ Fail
A-18	**Validation** 1. Enter an invalid value (e.g. 200% or letters).	Field shows an error; nothing is saved.	☐ Pass ☐ Fail

2.3 Catalogue (Content → Catalog)

ID	Test & steps	Expected result	Pass / Fail / Notes
A-20	**Cities and service area** 1. New city: name, state, GST code; search it on the map; draw the service zone polygon; save. 2. Edit the zone (drag corners) and save.	City listed; hosts can only list cars inside the zone (error "outside our … service area" otherwise).	☐ Pass ☐ Fail
A-21	**Brands** 1. Add a brand with logo; deactivate another.	Active brands appear in host app brand picker; inactive ones do not.	☐ Pass ☐ Fail
A-22	**[NEW] Models & variants** 1. Tab "Models & variants" → New model: brand Hyundai, name Creta, usual type SUV, variants "E (Petrol, Manual, 5)", "SX(O) Turbo (Petrol, Automatic, 5)". Save. 2. Edit: add a variant, deactivate one. 3. Try deleting a model used by a car.	Model listed with variants. Host app shows Creta in the model picker after choosing Hyundai, and its active variants. Delete of a used model is refused ("deactivate instead").	☐ Pass ☐ Fail
A-23	**[NEW] Pickup / drop-off points** 1. Tab "Pickup points" → New: city, name "Vijay Nagar hub", address, coordinates "22.7533, 75.8937", Pickup + Drop-off. Add "Airport" as Drop-off only. 2. Deactivate one, edit instructions.	Points listed per city; active ones show in fleet-car checkout (R-37). Coordinates are validated.	☐ Pass ☐ Fail
A-24	**Categories** 1. Add/edit a category with body type and image; mark popular.	Appears in renter filters and host car type chips.	☐ Pass ☐ Fail
A-25	**Delete protections** 1. Try deleting a city/brand/category used by a car.	Refused with "Vehicles use this item. Deactivate it instead".	☐ Pass ☐ Fail

3. Host app (Android) — onboarding, cars, bookings, earnings

ID	Test & steps	Expected result	Pass / Fail / Notes
H-01	**Sign in with OTP** 1. Open host app → enter Host A number → Continue → enter 123456 (or SMS code). 2. Try a wrong code 5 times; try resend before the cooldown.	Signed in; wrong codes are limited; resend waits for cooldown.	☐ Pass ☐ Fail
H-02	**Onboarding: profile & business** 1. Fill name, email; business type, business name, GSTIN (optional), address, city.	Steps marked done; invalid GSTIN rejected.	☐ Pass ☐ Fail
H-03	**Onboarding: KYC** 1. Choose ID type (Aadhaar/Passport/Voter), number, upload front/back, PAN + PAN card, selfie, DOB.	KYC step done; under-18 DOB rejected; Aadhaar stored masked.	☐ Pass ☐ Fail
H-04	**Onboarding: bank** 1. Enter holder, account no. twice, IFSC, UPI, upload cancelled cheque. Submit application.	Mismatched account numbers rejected; application status "Under review".	☐ Pass ☐ Fail
H-05	**[NEW] Add a car with catalogue model** 1. Fleet → Add a car → Brand Hyundai → Model (picker) Creta → Variant SX(O) Turbo. 2. Check fuel/gearbox/seats prefill; fill year, reg. no., colour, type, city, pickup address, prices, free km, extra km, **Unlimited km ₹600/day**, deposit. 3. Save.	Model/variant come from the catalogue; brand change clears model. Car saved as Draft with "Unlimited km" price.	☐ Pass ☐ Fail
H-06	**Free-text model fallback** 1. Pick a brand that has no catalogue models.	Model and variant are typed freely.	☐ Pass ☐ Fail
H-07	**Photos and documents** 1. Add 4+ photos (reorder, set cover); upload RC, insurance (provider, type, expiry), PUC (expiry). 2. Try an expired insurance date.	Uploads work; expired documents rejected.	☐ Pass ☐ Fail
H-08	**Submit for review** 1. Submit the car.	Status "In review"; missing items listed if incomplete.	☐ Pass ☐ Fail
H-09	**Edit live car** 1. After approval, change price → no review; change model or reg. no.	Price change keeps it live; sensitive change sends it back to review (warning shown).	☐ Pass ☐ Fail
H-10	**Availability & calendar** 1. Set car offline / maintenance; add a blocked period; add a special price for a date in the pricing calendar.	Offline car disappears from search; blocked dates not bookable; special price used in quotes. Blocking over an existing booking is refused.	☐ Pass ☐ Fail
H-20	**Booking request (non-instant)** 1. Renter books a non-instant car. Open Bookings → Requests. 2. Accept one; decline another with a reason.	Countdown shown; accept → renter gets "Booking confirmed"; decline → renter fully refunded.	☐ Pass ☐ Fail
H-21	**Approval timeout** 1. Leave a request unanswered past the response time.	Auto-declined and refunded by the system.	☐ Pass ☐ Fail
H-22	**[NEW] Bike / laptop deposit at pickup** 1. Open a confirmed booking whose renter chose a bike deposit. Check the "Security deposit" section (make/model/year/reg. no.). 2. Tap "Mark bike received". 3. After the renter returns the car, tap "Mark bike returned".	Renter cannot start the trip until received; status pill changes Hand over at pickup → Received → Returned; renter notified each time.	☐ Pass ☐ Fail
H-23	**Return review — accept** 1. Booking in "Return under review": compare pickup/return photos, tap Accept return.	Trip completes; your earning is shown and credited (on hold).	☐ Pass ☐ Fail

ID	Test & steps	Expected result	Pass / Fail / Notes
H-24	**Return review — damage claim** 1. Instead, file a damage claim with amount, description and photos.	Auto-complete timer stops; admin resolves the claim (O-22).	☐ Pass ☐ Fail
H-30	**What hosts can see** 1. With admin visibility settings off/on, open a booking.	Renter name/phone/KYC/amounts/payment shown only as allowed; host always sees own share; unlimited-km trips show "unlimited km".	☐ Pass ☐ Fail
H-40	**Earnings & payouts** 1. Earnings: check on hold / available / lifetime, monthly chart, ledger. 2. After the hold period, request a withdrawal ≥ minimum. 3. Try a second request while one is open.	Balances correct; withdrawal locks the amount; second request refused; paid payout shows UTR.	☐ Pass ☐ Fail
H-41	**Reviews and replies** 1. Reply to a renter review.	Reply visible on the car page.	☐ Pass ☐ Fail
H-42	**Help, notifications, account** 1. Open FAQ, raise a support ticket, read notifications, edit profile, sign out.	All work; ticket appears in admin Support.	☐ Pass ☐ Fail

4. Admin — hosts, vehicles, documents, commercials

ID	Test & steps	Expected result	Pass / Fail / Notes
V-01	**Host requests: one-step review** 1. Host management → Host requests → open Host A. 2. Review KYC images, bank proof; Approve (all checks). 3. For another host: Reject and choose steps to redo.	Approve: KYC approved, bank verified, host approved, host notified. Reject reopens chosen steps.	☐ Pass ☐ Fail
V-02	**[NEW] Upload KYC for a host** 1. Hosts → open a host in onboarding → KYC panel → "Upload documents…". 2. Choose ID type, number, upload ID front, PAN number + PAN card, DOB, optional photo; tick "Approve now"; upload.	Submission created and approved; KYC step marked done; host sees KYC complete in the app.	☐ Pass ☐ Fail
V-03	**[NEW] Add car for a host** 1. On the host page → Cars → "Add car for host". 2. Fill the form (catalogue model/variant, unlimited-km add-on), photos and documents; Add car.	Car created as an attached-host car (draft) and visible in the host app.	☐ Pass ☐ Fail
V-04	**[NEW] Make a host car live directly** 1. Open that car → Publish… 2. Try it while the host is not yet approved.	Unapproved host: refused "Approve the host first". Approved host: car becomes Approved + Bookable; host notified "Car approved".	☐ Pass ☐ Fail
V-05	**Vehicle requests review** 1. Fleet → Vehicle requests → open a submitted car; check photos and documents (secure links); Approve or Send back with a reason; mark luxury.	Approved car is listed; rejected shows reason in host app.	☐ Pass ☐ Fail
V-06	**Host bank by admin, settle host** 1. Host page: enter bank details (recorded verified); reveal full number (audited); Settle now with UTR.	Balances move from available to paid out; host notified.	☐ Pass ☐ Fail
V-07	**Host commission & visibility** 1. Host page: set commission override 35%; set visibility overrides.	Applies to new bookings of that host.	☐ Pass ☐ Fail
V-10	**Fleet car (company)** 1. Vehicles → Add fleet car; add photos/docs; Publish.	Listed as "WAY2CARS fleet".	☐ Pass ☐ Fail
V-11	**[NEW] Per-car commission (attached car)** 1. Open a host car → Commission panel → Change → 20% → Save. 2. Book and settle a trip on it.	Panel shows "set for this car"; booking snapshot uses 20%; host earning = rental − 20%.	☐ Pass ☐ Fail
V-12	**[NEW] Investor share (fleet car)** 1. Finance → Investors → add an investor (with bank). 2. Open a fleet car → Revenue split → Change → choose investor, share 60% → Save. 3. Open another fleet car and leave "No investor".	Funded car shows investor 60% / WAY2CARS 40%; unfunded car shows 100% WAY2CARS. Investor cannot be linked to host cars.	☐ Pass ☐ Fail
V-13	**Listing controls** 1. Featured on/off, rank, luxury, suspend listing with reason, lift suspension.	Search and home reflect changes; existing bookings not cancelled.	☐ Pass ☐ Fail
V-14	**Edit any car, availability, calendar** 1. Edit details (no review needed), set offline, add blocks, special prices.	Changes apply immediately.	☐ Pass ☐ Fail

5. Renter app — account, KYC, search, booking

ID	Test & steps	Expected result	Pass / Fail / Notes
R-01	**Sign in & profile setup** 1. Install renter app → number R3 → OTP → name, email, referral code (optional).	Account created; invalid referral code shows an error.	☐ Pass ☐ Fail
R-02	**KYC submit** 1. Account → Verify: licence number + expiry, licence front/back, ID proof, selfie, DOB. 2. Try DOB under 21 and licence expiring in <30 days.	Submitted "Under review"; under-age and expiring licence rejected.	☐ Pass ☐ Fail
R-03	**KYC review (admin)** 1. Admin → Customers → Renter KYC → approve R1, reject R3 with reason.	R1 can book; R3 sees the reason and can resubmit.	☐ Pass ☐ Fail
R-04	**Choose city & trip times** 1. Home → choose city → pickup/return times (30-min steps).	Times required before cars and prices are shown.	☐ Pass ☐ Fail
R-05	**[NEW] Support number on wrong timings** 1. Pick a return time less than the minimum trip length, or pickup sooner than the minimum notice, and search / open checkout.	Error message ends with "Need help? Call us on <support phone>." Checkout shows a "Call …" button that opens the dialler.	☐ Pass ☐ Fail
R-06	**Search, sort, filters** 1. Sort by price/rating/distance; filter brand, fuel, body type, transmission, seats, price, luxury, EV, instant, delivery.	Results update; empty state when nothing matches.	☐ Pass ☐ Fail
R-07	**[NEW] BOOKED badge with next free time** 1. R1 books car X for tomorrow 10:00–18:00 (pay). 2. R2 searches the same city for tomorrow 12:00–16:00.	Car X appears at the end of the list, photo faded with a red "BOOKED" badge and "Next available from <date, time>" (end of R1's trip + buffer). Free cars appear first.	☐ Pass ☐ Fail
R-08	**[NEW] Booked car detail** 1. R2 taps car X.	Notice "BOOKED for these times · Next available from …" with buttons "Book from <time>" (moves the trip, same duration) and "Call support".	☐ Pass ☐ Fail
R-09	**Car detail** 1. Open a free car: gallery, specs, features, reviews, host, pricing (day lines, free km, extra km, **unlimited km option**, deposit "or a 2022+ bike or a latest-model laptop"), cancellation policy, map.	All sections show; price estimate matches trip times.	☐ Pass ☐ Fail
R-20	**Checkout — pay in full** 1. Continue → Review & pay → self pickup → Pay now → Razorpay test payment.	Booking confirmed (instant) or "Awaiting host"; trip appears in Trips; invoice generated.	☐ Pass ☐ Fail
R-21	**Payment hold expiry** 1. Start checkout, cancel Razorpay, wait > hold minutes.	Booking shows "Payment not completed"; car becomes free again.	☐ Pass ☐ Fail
R-22	**Payment failure / cancel** 1. Cancel the Razorpay sheet, or use a failing method.	Toast explains; you can retry from the trip page within the hold.	☐ Pass ☐ Fail
R-23	**Doorstep delivery** 1. Choose doorstep delivery, search an address within range, then one out of range.	Fee = base + per-km shown; too-far address rejected with distance.	☐ Pass ☐ Fail
R-24	**Coupon & wallet** 1. Apply a valid coupon; an invalid one; toggle wallet credit.	Discount shown; invalid coupon error; wallet capped at the max %.	☐ Pass ☐ Fail
R-30	**[NEW] Advance payment (host vs fleet %)** 1. Choose "Pay 30% now" on a host car; on a fleet car the option says 50%. Pay.	Only the advance is charged; balance due date shown; trip page shows "Advance paid" and "Pay balance".	☐ Pass ☐ Fail

ID	Test & steps	Expected result	Pass / Fail / Notes
R-31	**[NEW] Advance in booking history** 1. Trips list after R-30; Account → Payments & refunds.	Trip card shows "Advance paid ₹X · Balance ₹Y by <date>"; payment history row says "Advance payment"; after paying the balance the card shows "Balance paid".	☐ Pass ☐ Fail
R-32	**Pay balance / auto-cancel** 1. Pay the balance from the trip page. For another booking leave it unpaid past pickup time.	Balance paid → pickup allowed. Unpaid → booking auto-cancelled per policy; pickup refused before payment ("Pay the remaining …").	☐ Pass ☐ Fail
R-33	**[NEW] Unlimited kilometres** 1. On a car offering it, choose "Unlimited km +₹X for this trip".	Trip charges include "incl. unlimited km ₹X"; price breakdown says "Unlimited km — no extra-km charge". Cars without the option show no choice.	☐ Pass ☐ Fail
R-34	**[NEW] Money deposit minimum ₹15,000** 1. Book a car whose own deposit is lower (e.g. ₹5,000).	Deposit shown and charged as ₹15,000.	☐ Pass ☐ Fail
R-35	**[NEW] Bike as deposit** 1. Security deposit → "My bike" → enter make, model, year 2023, reg. no. → Pay. 2. Try year 2019.	Deposit ₹0 online; 2019 refused ("2022 or newer"). Trip page shows "Bike: … · Hand over at pickup".	☐ Pass ☐ Fail
R-36	**[NEW] Laptop as deposit** 1. Choose "My laptop", enter brand, model, year, serial number; book.	Same as R-35 for a laptop; missing serial refused.	☐ Pass ☐ Fail
R-37	**[NEW] Pickup / drop-off points (fleet cars)** 1. On a WAY2CARS fleet car, choose pickup "Vijay Nagar hub" and return at "Airport". Book. 2. On a host car, check that no points are offered.	Points shown with address/instructions; booking shows "Pickup at …" and "Return at …"; admin booking shows the same.	☐ Pass ☐ Fail
R-38	**KYC gate** 1. Try paying with R3 (KYC not approved).	"Verify your licence to book" — Pay disabled.	☐ Pass ☐ Fail
R-39	**Overlap guard** 1. R1 tries a second booking overlapping their own trip.	Refused "You already have a trip during these times".	☐ Pass ☐ Fail
R-40	**Double-booking race** 1. R1 and R2 pay for the same car and time at the same moment.	Only one succeeds; the other gets "booked" (and is refunded if payment arrived late).	☐ Pass ☐ Fail

6. Renter app — trip lifecycle

ID	Test & steps	Expected result	Pass / Fail / Notes
R-50	**Cancel before pickup** 1. Trip page → Cancel → read refund preview → confirm.	Refund follows tiers; wallet portion returned; host notified.	☐ Pass ☐ Fail
R-51	**Extension request (approval on)** 1. Ongoing/confirmed trip ≥12 h before return → Extend → new return time. 2. Admin approves (O-12); pay the extension. 3. Try within 12 h of return.	Request "Awaiting approval"; after approval end time moves and charge due; too-late request refused with support message.	☐ Pass ☐ Fail
R-52	**[NEW] Trip rules on the trip page** 1. Open a confirmed trip.	Section "Trip rules & charges": speed limit, km allowance / extra km, late return rate, fuel, deposit, rules list, "Full terms & conditions".	☐ Pass ☐ Fail
R-53	**Pickup inspection & agreement** 1. When pickup opens: take ≥ minimum photos, odometer, fuel/battery, checklist, sign the agreement with full name. 2. Try before the pickup window / with too few photos.	Trip starts ("Trip in progress"); early or incomplete attempts refused.	☐ Pass ☐ Fail
R-54	**[NEW] Pickup blocked until collateral received** 1. For a bike/laptop booking, try to start the trip before staff/host mark it received.	Refused: "Hand over your bike… You can start the trip once our team marks it received."	☐ Pass ☐ Fail
R-55	**Return inspection** 1. End trip: photos, odometer (≥ pickup), fuel, damages with photos.	"Return under review"; estimated settlement shown.	☐ Pass ☐ Fail
R-56	**Settlement & dues** 1. After host/admin accept: check km driven, extra km, fuel, late fee, damage. 2. If dues exceed the deposit, pay dues.	Settlement shown; "Pay dues" works; unlimited-km trips show 0 extra km.	☐ Pass ☐ Fail
R-57	**[NEW] Deposit refund status** 1. After settlement (inspection ON): open the trip. 2. After admin review with a future date; after refund.	Shows "Car under inspection" → "Refund scheduled · Refund on <date>" with any extra charges listed → "Refunded". Notification "Deposit reviewed".	☐ Pass ☐ Fail
R-58	**[NEW] Collateral returned** 1. After handover, staff mark the bike/laptop returned.	Trip page shows "Returned"; notification received.	☐ Pass ☐ Fail
R-59	**Review the trip** 1. Rate car and host, comment.	Review appears (after moderation if enabled).	☐ Pass ☐ Fail
R-60	**Invoices** 1. Download each invoice PDF from the trip page.	PDF opens with GST details.	☐ Pass ☐ Fail
R-65	**[NEW] Adjustments shown to the renter (app v1.2.1)** 1. After O-26/O-27, open the trip and the wallet.	Trip page: "Amount adjusted by WAY2CARS" with each reason and where the money went; refunds say "to your WAY2CARS wallet" or "to your payment method"; wallet shows "Booking refund".	☐ Pass ☐ Fail
R-61	**[NEW] Wallet credits with reason** 1. After admin credit (F-30): Account → Wallet.	Entry shows the reason text; balance updated; notification "Wallet credited".	☐ Pass ☐ Fail
R-62	**Referral & loyalty** 1. Share referral code; new user signs up with it and completes a trip.	Both get rewards; loyalty cashback after trips.	☐ Pass ☐ Fail
R-63	**Support, roadside, notifications** 1. Raise a ticket, chat; request roadside help; read/mark notifications; change preferences.	Ticket thread works both ways; roadside shows the roadside phone.	☐ Pass ☐ Fail

ID	Test & steps	Expected result	Pass / Fail / Notes
R-64	**Account** 1. Edit profile, saved addresses, saved payment methods, delete account (with active trip and without).	Delete refused with active trips; otherwise account deleted and signed out.	☐ Pass ☐ Fail

7. Admin — bookings and operations

ID	Test & steps	Expected result	Pass / Fail / Notes
O-01	**Bookings list & filters** 1. Operations → Bookings: filter status, source, owner, city, dates, ref; "Needs attention": Extension requests, Balance due, **Deposit review**, **Bike / laptop deposits held**.	Each filter returns the right bookings.	☐ Pass ☐ Fail
O-02	**Booking detail** 1. Open a booking: trip (pickup point / drop-off), price breakdown (unlimited km line), payments, refunds, inspections, timeline, agreement, invoices, money split.	All data matches what the renter did.	☐ Pass ☐ Fail
O-03	**Accept/decline for a host** 1. On a request, accept or decline on the host's behalf.	Same effect as host action.	☐ Pass ☐ Fail
O-04	**Cancel booking (admin)** 1. Cancel with a reason.	Full refund initiated; both sides notified.	☐ Pass ☐ Fail
O-10	**Office booking** 1. Bookings → New office booking: phone (new and existing customer), schedule, car, price override with reason, payment Paid / Advance / Not paid; **Trip options**: unlimited km, deposit Bike/Laptop with details, pickup/drop-off points (fleet car).	Booking confirmed immediately; customer sees it in the app after signing in with that number; options saved.	☐ Pass ☐ Fail
O-13	**[NEW] Office schedule: start/end date and time** 1. New office booking → Schedule: pick Start date, Start time (30-min list), End date, End time. 2. Pick an end before the start.	Summary line shows the period and duration; end before start is refused ("Return must be after pickup").	☐ Pass ☐ Fail
O-14	**[NEW] Available cars for the period** 1. After choosing the schedule, look at "Available cars". 2. Choose a period that overlaps an existing booking of car X, and another where car Y has a blocked period.	Only cars free for the whole period are listed, with seats and price for the period; the line shows "N cars free · M booked or blocked". X and Y are not listed.	☐ Pass ☐ Fail
O-15	**[NEW] 5-seater / 7-seater filter** 1. Click "5 seater", then "7 seater", then "All cars"; search by registration.	5 seater shows only 5-seat cars; 7 seater shows 7+ seat cars; search narrows the list. Changing the dates so the chosen car is no longer free clears the selection.	☐ Pass ☐ Fail
O-11	**Record office payment** 1. On a balance-due booking: Record office payment (cash/UPI/card/bank + reference).	Balance marked paid; payment listed as offline.	☐ Pass ☐ Fail
O-12	**Extension approvals & direct extension** 1. Approve / reject a renter extension request. 2. Extend directly: collect in app / paid at office / waive.	End time moves on approval; charge status correct; renter notified.	☐ Pass ☐ Fail
O-20	**Return review on behalf of host** 1. Accept a return for the host.	Trip settles.	☐ Pass ☐ Fail
O-21	**Waive outstanding** 1. Waive dues with a reason.	Outstanding marked waived; audited.	☐ Pass ☐ Fail
O-22	**Damage claim decision** 1. Approve a claim with an amount ≤ claimed, or reject.	Settlement uses approved amount; host earns the damage compensation.	☐ Pass ☐ Fail
O-23	**Manual refund done** 1. For an offline payment refund marked "To return by hand", enter the reference.	Refund shows Refunded with the reference.	☐ Pass ☐ Fail
O-26	**[NEW] Adjust amount payable** 1. Open a confirmed advance booking (balance due) → Payment adjustments → Adjust amount… → Reduce by ₹500, reason "Car broke down for 4 hours (company fault)". Check the preview, apply. 2. Try an empty reason, and an amount larger than the booking.	Balance lowered by ₹500 (or waived); entry listed with amount, reason, admin and time; renter notified; empty reason / too large refused.	☐ Pass ☐ Fail

ID	Test & steps	Expected result	Pass / Fail / Notes
O-27	**[NEW] Adjustment refunded to wallet / card** 1. On a fully paid booking, adjust by ₹300 and choose "WAY2CARS wallet". On another, choose "Original payment method". 2. On a completed trip with dues, adjust by more than the dues.	Wallet: renter wallet +₹300 at once (wallet history: "Booking refund to wallet"), Refunds row "To: WAY2CARS wallet · Refunded". Card: Razorpay refund created. Dues lowered first, the rest refunded. Host/investor earnings unchanged.	☐ Pass ☐ Fail
O-28	**[NEW] Cancel with refund to wallet** 1. Cancel a paid booking → choose "WAY2CARS wallet" in the dialog.	Full amount credited to the wallet immediately; renter notified "Wallet credited".	☐ Pass ☐ Fail
O-29	**[NEW] Move a pending refund to the wallet** 1. Cancel an office (cash) booking → the refund shows "To return by hand" → click "Credit to wallet instead…". 2. Also try on a failed gateway refund.	Refund closed as Refunded to the wallet; wallet credited; the action disappears.	☐ Pass ☐ Fail
O-24	**Live tracking panel** 1. Open an ongoing trip.	Shows "no device" until a tracking provider is configured (nothing simulated).	☐ Pass ☐ Fail
O-25	**Support tickets** 1. Support: reply, change status/priority, roadside stages.	Renter/host see replies.	☐ Pass ☐ Fail

8. Admin — security deposit, inspection and refunds [NEW]

ID	Test & steps	Expected result	Pass / Fail / Notes
O-30	**Deposit held for inspection** 1. Complete a trip with a money deposit (inspection setting ON). 2. Bookings → Needs attention → Deposit review → open it.	Settlement shows deposit refund "Car under inspection"; nothing refunded yet; panel "Deposit inspection & refund" visible.	☐ Pass ☐ Fail
O-31	**Add charges & schedule refund** 1. Add "Interior cleaning ₹500"; click "+ Late handover" and enter 2 hours (uses the car's late rate). 2. Untick "Refund now", choose a date 7 days ahead, add an inspection note, Approve and schedule.	Summary recalculates deposit − charges; status "Refund scheduled" with the date; renter notified with amounts and date.	☐ Pass ☐ Fail
O-32	**Re-review / refund now** 1. Change charges, tick "Refund now", confirm.	Refund sent at once (Refunds table); status "Refunded"; further reviews refused.	☐ Pass ☐ Fail
O-33	**Scheduled refund job** 1. Leave a scheduled refund; after the date passes (job runs every 15 min).	Refund created automatically; status "Refunded".	☐ Pass ☐ Fail
O-34	**Charges larger than deposit** 1. Add charges exceeding the deposit.	Refund 0; "Renter must pay ₹X"; renter can pay dues in the app or office.	☐ Pass ☐ Fail
O-35	**Collateral received / returned** 1. Bike/laptop booking: Security deposit panel → Mark received (with note) before pickup; after return → Mark returned. 2. Try "returned" before the car is back.	Status changes and renter notified; early return refused.	☐ Pass ☐ Fail
O-37	**[NEW] Deposit refund to wallet** 1. In the deposit inspection panel, choose "Refund to: WAY2CARS wallet", refund now (and on another booking schedule a date).	Wallet credited now, or on the scheduled date by the job; refund shows destination wallet.	☐ Pass ☐ Fail
O-36	**Inspection switched off** 1. Settings → turn "Inspect the car before refunding" off; settle a trip.	Deposit refunded immediately at settlement (old behaviour).	☐ Pass ☐ Fail

9. Admin — finance

ID	Test & steps	Expected result	Pass / Fail / Notes
F-01	**Settlements (booking-wise)** 1. Finance → Settlements: date range, owner filter, totals; export CSV.	Columns: collected, GST, commission, owner/investor share, WAY2CARS share, payout status; CSV matches.	☐ Pass ☐ Fail
F-02	**Host balances** 1. Tab Host balances; Settle link.	On hold / available / requested / paid out per host.	☐ Pass ☐ Fail
F-03	**Payouts** 1. Approve, mark paid (UTR), reject a host withdrawal; view bank details (audited).	Host balances and notifications update.	☐ Pass ☐ Fail
F-10	**[NEW] Investors list & detail** 1. Finance → Investors → New investor: name, mobile, email, PAN, bank (account twice, IFSC). Edit later and replace bank.	Listed with masked bank; PAN masked.	☐ Pass ☐ Fail
F-11	**[NEW] Investor earnings split** 1. Settle a trip on a fleet car with a 60% investor (V-12). 2. Open the booking money split and Settlements.	Investor earning = 60% of rent + extra km + fuel + late fee (excl. GST/fees); WAY2CARS keeps the rest; ledger entry "Investor share" with booking ref.	☐ Pass ☐ Fail
F-12	**[NEW] Fleet car without investor** 1. Settle a trip on a fleet car with no investor.	Investor share 0; 100% to WAY2CARS.	☐ Pass ☐ Fail
F-13	**[NEW] Pay investor** 1. Investor page → Show full number (audited) → Record payout with amount and UTR. Try more than the unpaid balance.	Unpaid balance reduces, payout listed; over-balance refused.	☐ Pass ☐ Fail
F-14	**[NEW] Late cancellation on investor car** 1. Cancel a paid fleet booking late (partial refund).	Investor credited their share of the retained rent.	☐ Pass ☐ Fail
F-20	**Reports** 1. Reports: revenue, bookings, vehicle performance, user growth, host earnings, payments; CSV exports.	Numbers consistent with bookings.	☐ Pass ☐ Fail
F-30	**[NEW] Wallet credit with mandatory reason** 1. Users → open R1 → Adjust wallet → Credit, category Refund, ₹500, booking ref, reason. Try with an empty reason.	Empty reason refused; credit applied, renter notified; history row shows category, reason, booking ref and your name.	☐ Pass ☐ Fail
F-31	**[NEW] Wallet debit** 1. Adjust wallet → Debit ₹100 "Correction of duplicate credit". Try a debit larger than the balance.	Debit applied; over-balance refused.	☐ Pass ☐ Fail
F-32	**[NEW] Wallet history** 1. User page → Wallet history (pages); Finance → Wallet adjustments with filters (date, credit/debit, category).	Every entry listed with who made it.	☐ Pass ☐ Fail
F-33	**Permissions** 1. Log in as Ops admin and try wallet adjust / investors payout; as Finance admin try catalogue edit.	Buttons hidden and API refuses (403) where not permitted.	☐ Pass ☐ Fail

10. Admin — analytics and follow-ups [NEW]

ID	Test & steps	Expected result	Pass / Fail / Notes
AN-01	**Installs & activity** 1. Install the v1.2.0 renter app on a new phone and open it; open the web /user once. 2. Admin → App analytics (last 30 days).	Installs and active devices increase; signed-in renters counted after login.	☐ Pass ☐ Fail

ID	Test & steps	Expected result	Pass / Fail / Notes
AN-02	**Funnel & bounce rate** 1. On one phone: search → view car → start checkout → start payment → cancel. On another: open app and close.	Funnel counts each step; bounce rate reflects the second session; daily chart (Installs / App opens / Car views / Checkouts / Payments) updates.	☐ Pass ☐ Fail
AN-03	**Most viewed cars** 1. View a car several times from two devices.	Appears in "Most viewed cars" with views, devices and paid bookings.	☐ Pass ☐ Fail
AN-04	**Drop-offs to call** 1. Signed-in R2 starts checkout but does not pay. Check "Drop-offs to call" (Reached: Started checkout or later). Export CSV.	R2 listed with name, phone, last step, car and time; CSV downloads. After R2 pays, R2 disappears.	☐ Pass ☐ Fail
AN-05	**Log a follow-up** 1. Click Follow up → Call (dialler on mobile) → outcome Contacted + note → Save.	Row shows "Contacted" and the note; activity timeline shows recent events and previous follow-ups.	☐ Pass ☐ Fail

11. Admin — marketing, content, moderation

ID	Test & steps	Expected result	Pass / Fail / Notes
M-01	**Coupons** 1. Create percent and flat coupons with limits (per user, total, dates, min rental, cities, first ride). Deactivate one.	Renter can apply valid ones only; usage counted.	☐ Pass ☐ Fail
M-02	**Banners** 1. Add a banner with image, link, city, dates; reorder.	Shows on renter home within dates.	☐ Pass ☐ Fail
M-03	**Broadcast** 1. Send a promotional push to a city.	Renters with promotions on receive it; recipients count shown.	☐ Pass ☐ Fail
M-04	**CMS pages** 1. Edit and publish Terms & Conditions, Privacy, Cancellation policy, Rental agreement, Host terms.	Apps show the new text; changing the rental agreement forces re-acceptance at pickup.	☐ Pass ☐ Fail
M-05	**FAQs** 1. Add/edit FAQs for renters and hosts.	Visible in each app's help.	☐ Pass ☐ Fail
M-06	**Review moderation** 1. Hide/publish a review.	Hidden review disappears from the car page and rating.	☐ Pass ☐ Fail

12. Admin — system

ID	Test & steps	Expected result	Pass / Fail / Notes
S-01	**Admin accounts & roles** 1. Create admins with each role; disable one; reset password/MFA.	Sidebar shows only permitted sections; disabled admin is signed out.	☐ Pass ☐ Fail
S-02	**Audit log** 1. Filter by action (e.g. booking.deposit_reviewed, user.wallet_credited, investor.paid, vehicle.commercials_updated).	Entries show actor, time, changes, reason.	☐ Pass ☐ Fail
S-03	**[NEW] Integrations** 1. System → Integrations.	Shows SMS (OTP), Booking confirmation SMS, WhatsApp, Razorpay mode, Firebase, email, maps, tracking with configured / not configured.	☐ Pass ☐ Fail
S-04	**Dashboard** 1. Open Dashboard.	KPIs and alerts load.	☐ Pass ☐ Fail

13. Notifications, WhatsApp/SMS and background jobs

ID	Test & steps	Expected result	Pass / Fail / Notes
N-01	**Push notifications** 1. With Firebase configured: booking confirmed, host request, trip reminders, refund processed, payout paid.	Push arrives and opens the right screen; in-app inbox always has it.	☐ Pass ☐ Fail
N-02	**Email** 1. Booking confirmed / cancelled / refund emails for renters with email.	Emails sent with link.	☐ Pass ☐ Fail
N-05	**[NEW] WhatsApp / SMS booking confirmation** 1. Confirm a booking (instant, host accept, and office booking). 2. Admin booking → Booking confirmation panel → Show message.	Log shows WhatsApp and SMS: "Sent" when providers are configured, otherwise "Not configured". Message contains ref, car, times, pickup place, amount paid, speed limit, km allowance/extra km, late fee, fuel, deposit, rules and terms link.	☐ Pass ☐ Fail

ID	Test & steps	Expected result	Pass / Fail / Notes
N-07	**[NEW] WhatsApp via Textora (BUZWAP)** 1. On the server set WHATSAPP_ENABLED=true, WHATSAPP_PROVIDER=textora, TEXTORA_FROM=BUZWAP, TEXTORA_AUTHKEY, TEXTORA_BUSINESS_ACCOUNT_ID, WHATSAPP_BOOKING_TEMPLATE=service_confirmation and WHATSAPP_BOOKING_PARAMS (e.g. name,ref). Restart. 2. System → Integrations; then confirm a booking for your own number.	Integrations shows WhatsApp configured (Textora, template and fields). The renter receives the template on WhatsApp; the booking log shows WhatsApp "Sent". A wrong authkey shows "Failed" with the provider message.	☐ Pass ☐ Fail
N-06	**[NEW] Manual WhatsApp fallback / resend** 1. Click "Open in WhatsApp" and "Copy message"; click "Resend automatically".	WhatsApp opens to the renter’s number with the text filled in; resend logs a new attempt.	☐ Pass ☐ Fail
N-10	**Hold expiry job** 1. Leave an unpaid booking past the hold.	Expires within ~1 minute; coupon/wallet released.	☐ Pass ☐ Fail
N-11	**Balance reminder / auto-cancel** 1. Advance booking with balance due in < 6 h; unpaid at pickup.	Reminder sent once; auto-cancel at pickup time.	☐ Pass ☐ Fail
N-12	**Auto-complete returns** 1. Host does not review within the window.	Trip completes automatically (deposit then waits for inspection if ON).	☐ Pass ☐ Fail
N-13	**Earnings release** 1. After hold days.	Host earnings move from on hold to available; host notified.	☐ Pass ☐ Fail
N-14	**Refund retry & payment reconcile** 1. Simulate a Razorpay failure (test) and check later.	Refunds retried up to 6 times; failed ones alert admins.	☐ Pass ☐ Fail
N-15	**Pickup / return reminders** 1. Trip starting soon / ending soon.	Reminders sent once.	☐ Pass ☐ Fail

14. Web replicas, negative and edge cases

ID	Test & steps	Expected result	Pass / Fail / Notes
W-01	**Renter web (/user)** 1. Repeat R-04, R-07, R-20, R-30, R-33..R-37, R-52, R-57 in a desktop and a mobile browser.	Same behaviour as the Android app; phone-width column on desktop.	☐ Pass ☐ Fail
W-02	**Host web (/vendor)** 1. Repeat H-05, H-22, H-23 in the browser.	Same behaviour as the Android host app.	☐ Pass ☐ Fail
E-01	**Offline** 1. Turn off internet in the apps.	"You're offline" banner; cached data shown; actions fail gracefully.	☐ Pass ☐ Fail
E-02	**Session revoked** 1. Suspend a renter in admin while they are signed in.	App signs them out with a suspension message.	☐ Pass ☐ Fail
E-03	**Old app version** 1. Use v1.1.1 renter app against the new backend.	Still works (booked cars are hidden there; wrong-timing errors also show the support number).	☐ Pass ☐ Fail
E-04	**Upload limits** 1. Upload a 20 MB file or a non-image.	Rejected with a clear message.	☐ Pass ☐ Fail
E-05	**Expired documents** 1. Car insurance/PUC expiry in the past.	Cannot submit/publish; listed as missing.	☐ Pass ☐ Fail
E-06	**Out of service area** 1. Host sets a pickup address outside the city zone.	Rejected.	☐ Pass ☐ Fail
E-07	**Max trip / max advance** 1. Trip longer than max days; start beyond max advance days.	Rejected with the limit and the support number.	☐ Pass ☐ Fail
E-08	**Late payment after hold** 1. Pay after the hold expired while the car got booked by someone else.	Booking cancelled and fully refunded automatically.	☐ Pass ☐ Fail
E-09	**Permissions by URL** 1. As Ops admin, open /admin/investors or /admin/wallet-adjustments directly.	Not allowed page; API returns 403.	☐ Pass ☐ Fail

15. Requirement traceability (v1.2.0) and sign-off

#	Requirement	Where	Tests
1	Support phone with booking errors (timings)	Backend errors, renter checkout/vehicle	R-05, E-07
2	BOOKED badge + next available date/time	Search, car card, car detail	R-07, R-08
3	Unlimited kilometres option	Car pricing, checkout, settlement, extensions	H-05, R-33, R-56
4	Deposit: ₹15,000 min / 2022+ bike / latest laptop	Settings, checkout, office booking	A-12, R-34–R-36, O-10
5	Booking details + T&C via WhatsApp/SMS	Messaging, booking page, trip page	A-13, N-05, N-06, R-52
6	Advance amount shown in booking history	Trips list, trip page, payments	R-30, R-31
7	Admin uploads host documents, approves, makes cars live	Host page, vehicle page	V-02, V-03, V-04
8	Catalogue: brands, models, variants, pickup/drop-off, service areas	Content → Catalog	A-20–A-25, H-05, R-37
9	Commission / host earnings; investor vs company split	Car commercials, investors, settlements	V-11, V-12, F-10–F-14
10	App tracking & analytics, drop-off outreach	Renter apps, App analytics	AN-01–AN-05
11	Admin wallet credit with reason + history	User page, Wallet adjustments	F-30–F-32, R-61

#	Requirement	Where	Tests
12	Deposit inspection, charges, refund approval & timeline; return bikes/laptops	Booking page, jobs, apps	O-30–O-36, H-22, R-54, R-57, R-58
13	Configurable advance % for fleet and host cars	Settings, checkout	A-11, R-30
14	Office booking: start/end date & time, available cars, 5/7-seater filter	New office booking	O-13, O-14, O-15
15	Edit payment: reduce amount payable with a reason	Booking → Payment adjustments	O-26, O-27, R-65
16	Refund to WAY2CARS wallet + transaction history	Cancel, deposit refund, adjustments, pending refunds	O-27, O-28, O-29, O-37, F-32
17	WhatsApp through the client's provider (Textora / BUZWAP)	Server settings, booking confirmation	N-05, N-07

Known setup dependencies

• WhatsApp goes through Textora (BUZWAP). The template name and the order of its variables must match what is approved on the client's account (WHATSAPP_BOOKING_TEMPLATE / WHATSAPP_BOOKING_PARAMS). Booking SMS needs a second DLT-registered template (SMS_INDIA_HUB_BOOKING_*). Until configured the log shows "Not configured" and staff use "Open in WhatsApp".

• Analytics counts start from v1.2.0 apps; Play Store download numbers are not visible to the app — "installs" are first opens.

• Payments, push and email need their provider keys (System → Integrations).
